Bob's Message

I had the opportunity to go for a two day 900 mile ride a few days ago and I was reminded how much fun it is to get out on the bike. The weather has been so bad the last few weeks, I really haven't felt much like putting on all the gear necessary to be comfortable just to ride around the block. However, we do get a few breaks in the weather and I'd like to encourage you to take advantage of the opportunities and swing a leg over your Goldwing and circulate some oil.

I will be missing for the February Chapter Gathering. So will our Assistant CD, Allan Freebody. He and I and a few other members of the chapter will be traveling through the Southwest for a few days. Assistant Chapter Director Kay Freebody will be conducting the meeting in our absence.

Chapter Educator Mark Kratz has planned a Parking Lot Practice for after the meeting, which I know all of you will find fun, challenging and helpful. Mark has made arrangements to use the same course he uses to teach his police motor officer courses. This will be somewhat different than the PLP's we have had in the past. I encourage all of you to participate and benefit from this terrific opportunity.

Have you taken a look at the chapter web site lately? <http://www.gwrra-ca2q.org> is the address. Reiner Kappenberger, with Lisa's assistance, has made it into a really good looking site. In cooperation with Bill Androws, they are adding pictures of chapter members to the Who's Who section of the web site. It would be great to have many more pictures of members and their bikes on view.

Planning is underway for the CA2Q Mike Pendergast Memorial Poker Ride to be held on June 21. The proceeds from the ride will be donated to the Ride for Kids fund for the Pediatric Brain Tumor Foundation. This is a worthy cause and an excellent way to remember our friend. Debbie Pendergast is in charge of planning the event, and is looking for all the help she can get. When she asks you to help, I know you'll say yes, just as you always do.

We have had a few members move away in the past couple of months. Margie Massar has been transferred to Ventura. The folks at CA-1S will be lucky to have her participation. Charlie Dodds has received a promotion and a transfer to Dallas, TX. Jim Christian has moved to Lemoore where he will likely become active with CA-2A. Other chapter members have had job changes which make it more challenging for them to participate in chapter events.

We are also seeing a few new members making their appearance at meetings, and we are always glad for the new smiling faces. Be sure to introduce yourself and welcome anyone you don't know at the chapter gathering. It's possible they will become your new best friend. You already know you have something in common.

Let's Ride!

Bob Hole

Message from the District F Director

A "big" thanks to all of you for your good wishes and support the past month. What an opportunity to serve for such a diversified, fun-loving, "adventurous" group of people. Sandy and I hosted our 1st A.D.D. meeting in December for Gene & Barbara Renken, Rick & Joyce Elmore, and Lou & Laura Ricks. Their enthusiasm is contagious! As your Assistant District Directors, they passed on your ideas, hopes, and eagerness for 2003. We outlined a new agenda for our CD meeting in January, and with your help hope to kick off this new year in several new directions.

At our CD meeting, we mixed CD's with different locals and shared success stories, ideas, and lent our support for fellow members in all areas. We believe collectively we are a multi-talented, highly skilled group of people. It's in our interaction, and brainstorming, that our new ideas as well as tried and true directions shape our district to make it appealing to all who want to join. We have "high-hopes" for all our Chapter Directors. You, the officers and staff are a springboard, a "catalyst" to bring out the very best in the members you serve. Sandy and I have found that members love to work for a leader that believes in their ability to accomplish the tasks before them, using their "own" imagination, and allowing them to work through their job with guidance when asked for, instead of being controlled or micro managed.

We both believe in the philosophy that **you only get out of something what you put into it.**

The surest way to feel you belong (and you do) is to get involved. Volunteer to do something in your chapter. When we first joined, some ten years ago, we were so green we said, "Hey, we'll be your COY". Now, I thought COY was a fish, but Sandy said they spelled that fish "KOI". We thought it would be fun to be greeters and wear matching shirts to get to know this new group of friends. Well, all the "wise ones" snickered at us, pulled us off to the side and enlightened us. They gently explained COY was an honored position in the chapter, something earned by our dedication to the chapter. Boy, did we feel stupid or what? The point is that it is OK to raise your hand in support of your chapter. Become one of the many who know it is in the giving to the GW Chapter that we reap the abundance of FRIENDSHIP and laughter. So speak up, don't be shy; it's just that special talent **YOU** have that we are looking for.

Rick and Sandy Dyer

District Directors for the Goldwing Road Riders Association of California

Parking lot practice

By
Mark Kratz
CA2Q Chapter Educator

The skills required to ride a motorcycle safely, can diminish with time. Although we would like to, not all of us can afford the time to ride our bikes as much as we want. The ole adage of “*Just like riding a bicycle,*” unfortunately, just doesn’t apply to an 800 pound plus motorcycle laden with cargo and a passenger, whilst dodging two ton metal projectiles on city streets.

Part of the excitement of cruising or touring, are the destinations. Some of the most intriguing places are in older cities or towns, or at the end of windy highway. These areas can be plagued with debris and unexpected obstacles and worse of all, “**the other driver.**” Large cities such as San Francisco for example, have narrow roads or lanes, uneven pavement and high traffic flows. These areas can test even the most skilled riders and the suction power of your buttocks.

In order to maintain our riding skill level, or to increase our skill level, like anything else takes practice. Knowing your limitations and being confident in your capabilities can make your trips more enjoyable and help keep you out of trouble. But it is up to you to develop those skills and practice, practice, practice. This is where parking lot practice and advanced rider courses can help you out.

Many riders may tend to shy away from training for fear of being embarrassed, or think they already know how to ride. I used to feel that way but each school I’ve attended has taught me new skills and has made me a much safer rider. I also realized that I didn’t know everything and I know I still have much to learn. Everyone on the training pad is in the same boat and I can guarantee you, even the most skilled riders will find a challenge.

Parking lot practice is designed to help you improve basic skills, such as clutch/throttle control, turning, slow speed riding and braking skills. Although done at low speed in a controlled area, reinforcing these behaviors will help you when it really counts.

I am giving a session following the February meeting at the **DeVry University Campus, located at 6600 Dumbarton Circle, Fremont, Ca.** We will take a leisurely ride through Niles canyon following breakfast and continue on to state route 84, until we reach the campus. There we will have an enclosed parking lot, free from outside interference to practice some basic skill exercises.

There will be exercises for the beginning rider and some extra exercises, for the more daring riders who want a challenge. I will focus on u-turns, tight turns (turn box), off set cone patterns, some more advanced patterns and any skill that you would like to work on. The practice will be low key and informative but most of all safe and fun. We will also cover how to pick up your bike in case you ever drop it but if you follow my instructions that will “**not**” happen during our practice.

I do require that you have the following safety equipment to participate: a D.O.T. approved helmet, gloves, eye protection, long sleeves, long pants and footwear with adequate ankle protection. I will have maps or you can map it yourself and meet us out there later, if you can’t make the meeting. I anticipate a 3 hour session but we can stay longer if you want, or you can leave early if you need to. I hope that you can make it and I’ll see you there or at the meeting. Maybe we can do lunch afterwards.

Dear Honda Gold Wing Owner:

As an owner of the world's finest touring motorcycle, we want to ensure your satisfaction as our valued customer. There are more than 25,000 satisfied GL1800 Gold Wing customers in the United States. A small number of owners, approximately 1%, have reported to us that they have experienced an indication of engine coolant temperature in the red zone. This is reported to occur in high ambient temperature conditions when the motorcycle is being ridden around 10 miles per hour.

While it is unlikely that you will experience this condition, if the temperature gauge does begin to rise, shifting to 2nd gear or altering your speed may reduce the operating temperature. If the gauge actually reaches and stays in the red zone, when safe to do so, the rider should pull over to the side of the road and let the GL idle. This will allow the fans to run and cool the bike rapidly.

In an effort to provide you with the best service possible if you frequently experience an indication of overheating, effective Thursday January 02, 2003, American Honda will open a toll free number exclusively for GL1800 customers regarding these matters. The number will be open 8:30 AM to 5 PM PDT at 1-866-784-1870.

We at American Honda look forward to contacting you in the future with an update on our progress and ultimately, by the summer riding season, a final resolution.

Sincerely,

American Honda Motor Co., Inc.

**Ray Blank, Vice President
Motorcycle Division**

The Sport TRIKE is the result of Gold Wing riders' requests. It is in a sense, the ultimate Gold Wing accessory.

GWRRA RIDER EDUCATION PROGRAM

Gold Wing Road Riders Association has always promoted safety through education. However, it wasn't until January, 1988, the Rider Education Program began to gain momentum with member participation increasing consecutively through the years. There are now over 20,000 member participants in the program.

The "Rider Ed" Program has four levels:

- **Level I •**
 "Safety By Commitment"
 You may sign up for the Rider Education Program's Level I at any time. There are no prerequisites or minimums to meet. Simply bring your commitment to make riding safer for yourself and those with whom you ride.
- **Level II •**
 "Safety By Education"
 To progress to this level, you must have signed on at Level I, adhered at least 5,000 safe riding miles since becoming a GWRRA member and have taken an approved riding training course (rider's) or an approved co-rider training course (seminar or 2-Up riding course) within the past two years.
- **Level III •**
 "Certified Tour Rider/Co-Rider"
 "Safety By Preparedness"
 You must be current in Level II, have CPR or First Aid training certification and carry a First Aid kit on your bike.
- **Level IV •**
 "Master Tour Rider/Co-Rider"
 "Safety by Enhanced Preparedness & Experience"
 You must be current and have a full year at Level II, have ridden at least 25,000 safe miles since joining GWRRA, have completed an approved Rider Training course within the past year and must be certified in both CPR and First Aid. Co-riders must meet the same requirements with the substitution of a Co-Rider seminar or 2-Up riding course.

MASTER RECOGNITION PROGRAM

Beginning in 2000, this program provides recognition for dedicated members who have maintained their commitment to the Rider Education Program through their continued renewal as a Master Tour Rider.

Senior Master
 Master Tour Riders who have maintained their active status by renewing for at least 5 consecutive years are eligible to be recognized as Senior Master.

Grand Master
 Master Tour Riders who have maintained their active status by renewing for at least 10 consecutive years are eligible to be recognized as Grand Master.

Life Grand Master
 Master Tour Riders who have maintained their active status by renewing for at least 15 consecutive years are eligible to be recognized as Life Grand Master.

LIVE SEMINARS

- **CPR/First Aid**
 Learn how to handle many first aid emergencies and how to save a life. Both CPR and First Aid are hands-on courses that add to your qualifications for Level III.
- **Co-Rider**
 This seminar is essentially the same as the video but presents the opportunity for discussion and Question and Answer sessions.
- **Group/Team Riding**
 Team riding involves cooperative communication between the entire team. Learn the do's and don'ts of riding together and enjoy the entire journey.
- **Road Captains Course**
 What if you're involved in leading a group? Learn about conducting a safe and well-planned ride. Learn the responsibilities of both the lead and tail rider.

VIDEO SEMINARS

- **Co-Rider**
 This instructional video addresses the preparation of a co-rider for the motorcycling experience. Areas of focus include the personal preparation, riding gear, motorcycle equipment and riding techniques – the do's and don'ts of riding as a team. This video qualifies the co-rider for Levels I-IV.
- **Traffling**
 GoldWingers are the experts when it comes to trailing behind touring bikes. This video presents an overview of various types of trailers, hitchies, wiring, safety drains, suspension, wheels and riding techniques.
- **Touring & Braking**
 "High-riding" can be the worst phrase in motorcycling. This video reviews several aspects of riding with emphasis on proper cornering and braking techniques to help assist the rider in presenting the dreaded "High-side".
- **Slow Speed Riding**
 Gary Sanford presents a comprehensive video seminar with demonstration of slow speed riding techniques. Learn to have better control with confidence.

Riding Courses presented by:

Motorcycle Safety Foundation (MSF)

- **MRC:RSS (Basic) (2.0 hours)**
 This is a 20-22 hour course that teaches basic riding skills for the true novice through the experienced rider. It presents riding strategies as well as fundamentals techniques. Includes classroom sessions and range instruction.
- **ERC Experienced Rider Course (8 hours)**
 The ERC combines classroom sessions (4 hours) with on-range riding instruction (4 hours). Designed for the experienced rider with at least 5,000 miles. The course focuses on braking, steering and cornering techniques.
- **2-Up ERC (8 hours)**
 The 2-Up ERC is identical to the standard ERC but allows for the inclusion of the co-rider during the course. This is an excellent opportunity to involve the co-rider and provide for coaching in preparation for actual on-road experience.

Evergreen Safety Council (ESC)

- **Sidestar Course**
 The US Sidestar Association course is now offered by ESC. This course is for enhancing and training sidecars in the unique techniques necessary for handling the rig.

GoldWing Road Riders Association (GWRRA)

- **Trike Rider Course (TRC) (6 hours)**
 The course is designed to provide trike riders with coaching and instruction focused on braking, steering and turning. A unique experience for the three-wheeler set.
- **Traffling (6 hours)**
 With classroom and range instruction, this course prepares the rider for pulling a trailer. Includes discussion for set-up and on-range practice for backing up, braking, steering and cornering.
- **Advanced Rider Course (ARC) (8 hours)**
 This course is designed to provide riders and co-riders with the necessary skills and knowledge to make their riding experience safer and more enjoyable. It combines (3) hours of classroom instruction with (5) hours of on-range riding skills training and coaching. The course is all new while focusing on the critical skills of cornering, braking and steering.
